

2017

TWELVE YEAR TRANSPORTATION PROGRAM

Adopted with adjustments by the

STATE TRANSPORTATION COMMISSION

On

June 15, 2017

TWELVE YEAR TRANSPORTATION PROGRAM

SINGLE-LINE LISTING DEFINITIONS

The following is an explanation of the various codes used in the single-line computerized printout of the Twelve Year Transportation Program. The items in the heading are explained below. The column definitions proceed from left to right, top to bottom.

SECTION HEADING

This groups the projects by location and mode consisting of following three items:

PARTNER The regional metropolitan planning organizations or rural planning areas. Statewide and interstate projects are grouped separately

COUNTY Groups the regional projects by County or the Central Office category

MODE Identifies the project's mode in the following order:

- Highways
- Bridges
- Airport
- Transit
- Rail

PAGE HEADING Columns detailing project specific information consisting of the following items:

MPMS # / PROJECT # The project's identification number used in the current project inventory system.

SR / ROUTE The State Route Number shows the route on which the project is located. The State Route System was implemented in late 1986, replacing the Legislative Route numbering system. Local roads are coded 9900 or 9911.

TITLE DESCRIPTION Consists of the following three items:

TITLE / SPONSOR A brief name given to the project, often referred to as the project's "short title" or the Transit Entity sponsoring the project.

MUNICIPALITY The municipality that is designated as the projects location in the project inventory system.

IMPROVEMENT A description of the type of work to be included in the project.

PERIOD Denotes the 2017 TYP time periods in which the projects are to be implemented:

- 1 / First** - First Four Years - October 2016 – September 2020
- 2 / Second** - Second Four Years - October 2020 – September 2024
- 3 / Third** - Third Four Years - October 2024 – September 2028

COSTS

Consists of the following eight items: In Thousands of Dollars.

Study	The cost associated with projects that are studies or research projects in thousands of dollars.
PE	The cost of the preliminary engineering of the project development in thousands of dollars.
FD	The cost of the final design of the project development in thousands of dollars.
UTL	The cost of the utility changes (electric, telecommunications, mechanical) in thousands of dollars.
ROW	The cost of the right-of-way phase of the project in thousands of dollars.
CON	The cost of the construction phase of the project in thousands of dollars.
PRA	The costs of planning and research or administrative projects in thousands of dollars.
TOTAL	The total project cost in thousands of dollars.
